Technical specifications

Type	Reflective tape for vehicles
Design	Honeycomb, hexagonal cells
Width	10 cm
Length	46 m
Color	Metallic silver
Adhesive	Aggressive, pressure-sensitive
Application temperature	10-30 °C, surface and air
Surface	Flat, clean, dry and rust-free, without rivets
Resistance	To delamination, fading and peeling
Vehicles	Trucks, trailers, semi-trailers, buses, caravans, tankers, fire and rescue vehicles

Description

The ATO 8412 is the metallic silver tape in a 10 cm width. By day it blends into the design of a coach, a motorhome or a fleet of branded vans, and at night it reflects headlights across its whole honeycomb surface. It suits companies that want visible vehicles without coloured stripes on the bodywork.

Technical data

- width: 10 cm;
- length: 46 m per roll;
- colour: metallic silver;
- weight: 2.2 kg.

Applying it

Work at 10-30 °C, on flat, clean, dry and rust-free surfaces with no rivets. The aggressive pressure-sensitive adhesive grips after firm pressure. The tape resists delamination, fading and peeling.

Where it is used

On coaches and minibuses, motorhomes, delivery vans, curtain-side or tipper lorries, containers and emergency vehicles.

Tip

On the sides of a van, a continuous line at the height of other cars' headlights shows best at night.

Other versions

Narrower, at 5 cm, is the ATO 8408. For white in 10 cm, see the ATO 8409.
