Technical specifications

Material	PPC, PVC, PC
Color	Red
Height	65.5 cm
Size (Base)	36 cm across flats, Ø41.1 cm across corners
Base Shape	Hexagon
Reflective	12 cat's eyes
Top	Ø35 mm thread
Chain Fixing	At the top, with the ATZ 101A and ATZ 330A hooks (not included)

Description

The parking cone looks different from an ordinary traffic cone: the red body has 2 wide white bands carrying 12 red cat's eyes, and the base is hexagonal, 36 × 41.1 cm. It weighs 6 kg, so neither the wind nor a light knock will move it.

What it is for
Reserving a parking space, closing an entrance for a while, marking a work area in a car park or yard, and showing drivers where they may not go.

Material
It is made of PPC, PVC and PC, belongs to the premium series, and is flexible and weather-resistant.

Visibility
The cat's eyes reflect the headlights, so at night the cone shows as a row of red dots on white.

Technical data
- 36 × 41.1 cm hexagonal base;
- 12 cat's eyes;
- 6 kg.

Same build, other colour
In blue, the parking cone is the V6-60BL.

Top of the cone
The cone has a Ø35 mm thread on top, with no loop. A plastic sign, a lamp or the ATZ 101A hook screws straight into it, with no adapter.

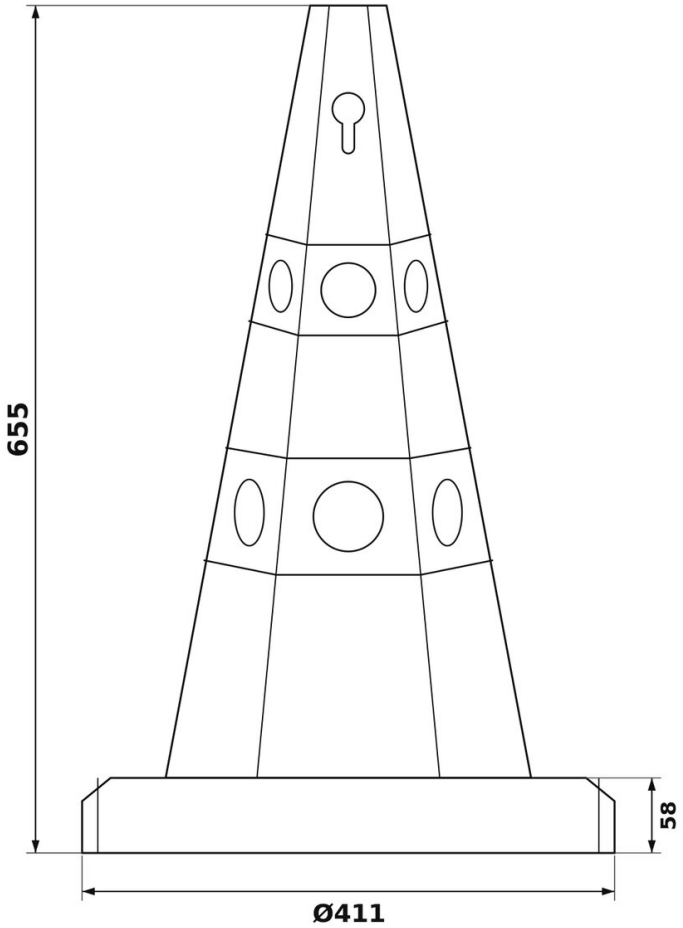

Chain
The plastic chain fastens at the top: screw the ATZ 101A hook into the thread, then fasten the chain to its ring with the ATZ 330A hook. That is how you link the cones together. The hooks and the chain are ordered separately.
