Traffic Cone, PE, 52 cm, 2 Reflective Bands, Weighted Base

ECONOMIC | Signs compliant with SR 1848-1:2024

AT A GLANCE

- PE traffic cone (economy), orange, 52 cm with the loop.
- Hexagonal weighted base, 39 cm.
- 2 honeycomb reflective bands.
- 2.3 kg.
- Loop on top, Ø35 mm thread underneath.

Product code	**V6-50AR2E**
Category	**Traffic Cones**
Brand	**Atto Trafic**
Weight	**2.3 kg**
Compliance	**Signs compliant with SR 1848-1:2024**

Technical specifications

Material	PE, PVC base
Color	Orange
Height	52 cm with the loop, 48.5 cm without it
Size (Base)	39 cm across flats, Ø42.5 cm across corners
Base Shape	Hexagon
Reflective	2 white honeycomb bands, 7.9 + 7.9 cm
Top	Moulded loop, 3.5 cm, cut off for the Ø35 mm thread
Chain Fixing	At the top, with the ATZ 101A and ATZ 330A hooks (not included)

Description

The economy 52 cm cone on a 39 cm hexagonal weighted base. The base gives it stability in wind, and the PE body keeps the price low. The whole cone weighs 2.3 kg, against 0.9 kg for the V6-50R2E, which has a light base.

Where to use it

In open car parks, at company yard entrances, on building sites and at roadworks that last more than a few hours. The weighted base keeps it in place when the wind blows.

Material

PE (polyethylene), a flexible plastic in matt orange, weather-resistant.

Visibility

2 white honeycomb reflective bands, visible at night in the headlights.

Technical data

- 52 cm high including the loop;
- 39 × 42.5 cm hexagonal base;
- 2.3 kg.

Premium or economy

The premium PVC version with the same base is the V6-50AR2, at 2.7 kg. For taller PE cones with a weighted base, see the V6-70AR2E and V6-90AR2E.

Top of the cone

The cone comes with a loop moulded on top. To fit a plastic sign, a lamp or the ATZ 101A hook, cut off the loop: underneath is the Ø35 mm thread, which they screw straight into, with no adapter.

Chain and stacking

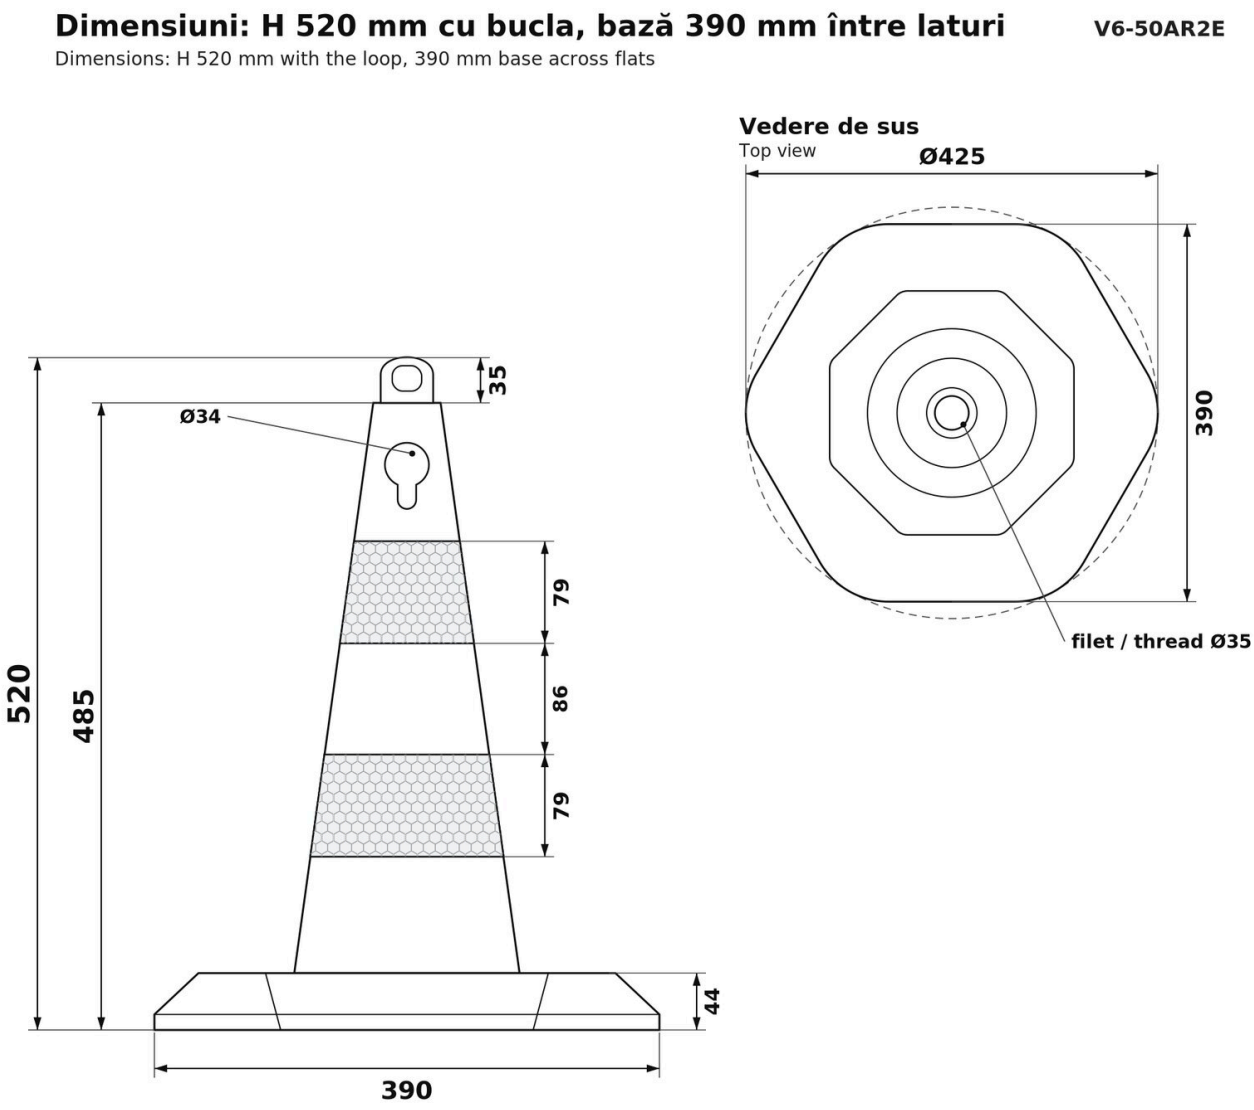

The plastic chain fastens at the top: screw the ATZ 101A hook into the thread, then fasten the chain to its ring with the ATZ 330A hook. That is how you link the cones together. The hooks and the chain are ordered separately. The black PVC base goes over the base of the cone and does not stop the cones from stacking.

What the roadworks rules require (Order 1112/411/2000)

SR 1848-1:2024 provides the traffic cone (V6) to protect freshly applied markings, to mark off small works and to sign police crews at accident scenes. In a work-zone signing layout, cones belong to the signing that marks the works, together with barrier boards and markers, installed after the advance signing. The methodological rules approved by Order MI/MT no. 1112/411/2000 require temporary signing to be retroreflective at night wherever the existing signing is. Compared with the 2011 edition, SR 1848-1:2024 specifies orange instead of red for the V6 cone, and this cone is orange.

The contractor installs the signing to the layout approved by the road authority with the traffic police's agreement, maintains and completes it for the whole job and removes it at the end; accidents caused by incomplete or missing temporary signing are entirely the contractor's responsibility.

În filet se înșurubează direct, fără adaptor: indicatoare din plastic cu filet, o lampă sau cârligul ATZ 101A.
These screw straight into the thread, no adapter: threaded plastic signs, a lamp or the ATZ 101A hook.
Acestea se comandă separat.
They are ordered separately.

V6-50AR2E top: cut off the loop to use the Ø35 mm thread, with signs, lamp and hook
