Traffic Cone, PE, 52 cm, 2 Reflective Bands

ECONOMIC | Signs compliant with SR 1848-1:2024

AT A GLANCE

- PE traffic cone (economy), orange, 52 cm with the loop.
- 2 honeycomb reflective bands.
- 28 cm octagonal base, 0.9 kg.
- Flexible plastic.
- Loop on top, Ø35 mm thread underneath.

Product code	**V6-50R2E**
Category	**Traffic Cones**
Brand	**Atto Trafic**
Weight	**0.9 kg**
Compliance	**Signs compliant with SR 1848-1:2024**

Technical specifications

Material	PE
Color	Orange
Height	52 cm with the loop, 48.5 cm without it
Size (Base)	28 × 28 cm
Base Shape	Octagon
Reflective	2 white honeycomb bands, 7.9 + 7.9 cm
Top	Moulded loop, 3.5 cm, cut off for the Ø35 mm thread
Chain Fixing	At the top, with the ATZ 101A and ATZ 330A hooks (not included)

Description

The V6-50R2E is the 52 cm cone for anyone who needs lots of cones at a low price: a works crew, a building site or a large car park. It is made of PE (polyethylene), a flexible plastic, and weighs only 0.9 kg.

Economy versus premium

The economy series has a lower price, lower weight and matt colours. The premium PVC cone, the V6-50R2, has the same height and the same bands, but a brighter colour and weighs 1.3 kg.

Where it goes

Around areas where work is done on the carriageway, where access is prohibited, in car parks and on building sites.

Technical data

- 52 cm high including the loop;
- 28 cm octagonal base;
- 2 honeycomb reflective bands;
- 0.9 kg.

Transport

Ten cones weigh just 9 kg together, so they are easy to take to the site.

Versions

With a weighted base: V6-50AR2E. Taller, also in PE: V6-70R2E and V6-90R2E.

Top of the cone

The cone comes with a loop moulded on top. To fit a plastic sign, a lamp or the ATZ 101A hook, cut off the loop: underneath is the Ø35 mm thread, which they screw straight into, with no adapter.

Chain and stacking

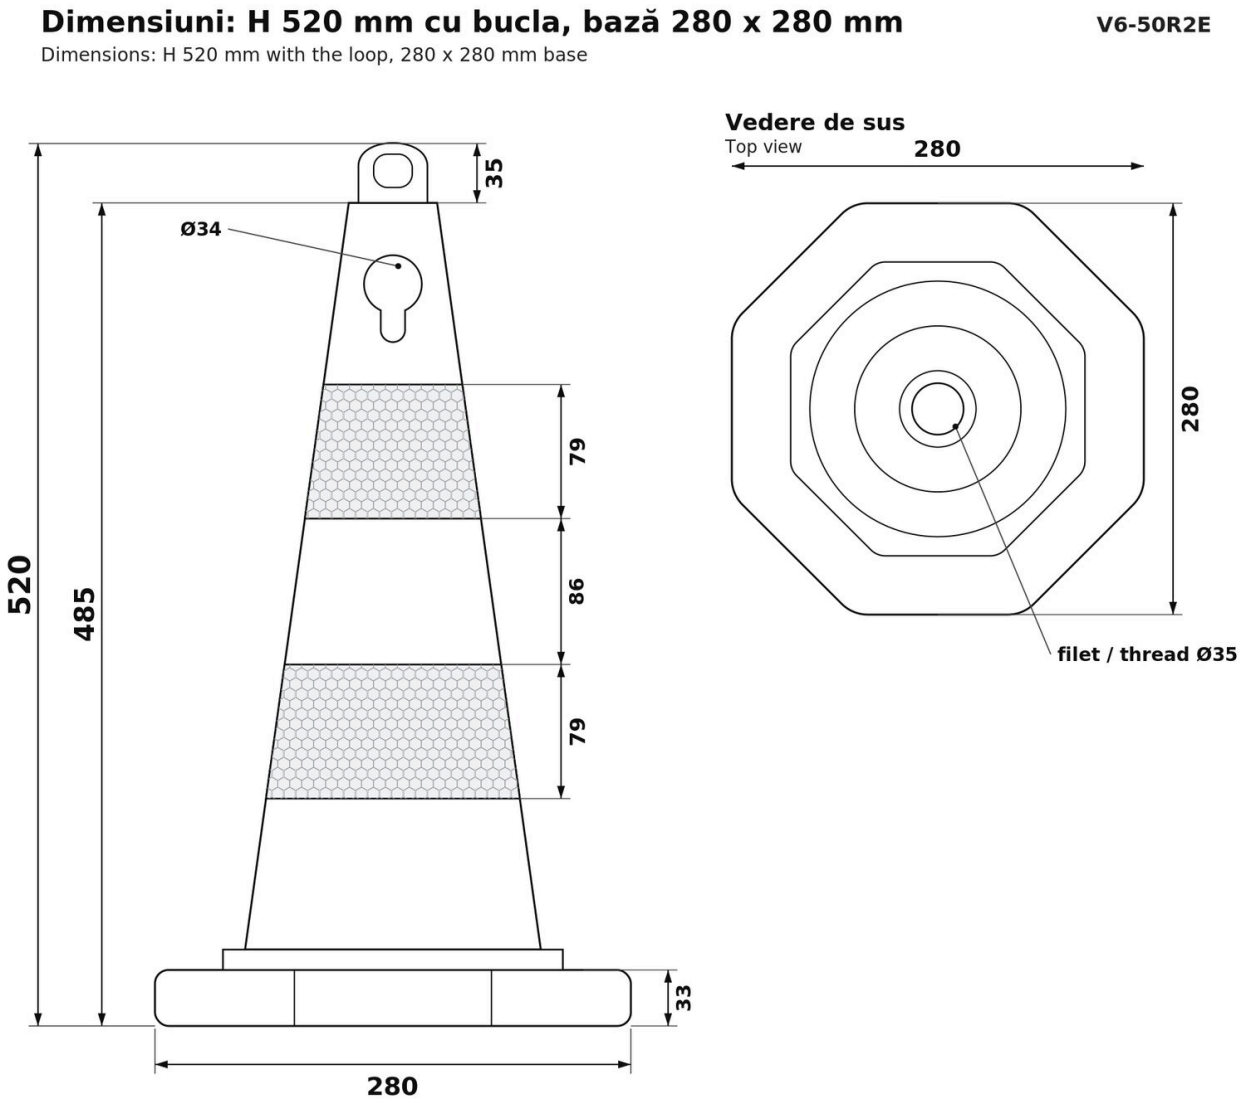

The plastic chain fastens at the top: screw the ATZ 101A hook into the thread, then fasten the chain to its ring with the ATZ 330A hook. That is how you link the cones together. The hooks and the chain are ordered separately. The cones stack inside each other, and the base has feet and channels that let the water drain.

What the roadworks rules require (Order 1112/411/2000)

SR 1848-1:2024 provides the traffic cone (V6) to protect freshly applied markings, to mark off small works and to sign police crews at accident scenes. In a work-zone signing layout, cones belong to the signing that marks the works, together with barrier boards and markers, installed after the advance signing. The methodological rules approved by Order MI/MT no. 1112/411/2000 require temporary signing to be retroreflective at night wherever the existing signing is. Compared with the 2011 edition, SR 1848-1:2024 specifies orange instead of red for the V6 cone, and this cone is orange.

The contractor installs the signing to the layout approved by the road authority with the traffic police's agreement, maintains and completes it for the whole job and removes it at the end; accidents caused by incomplete or missing temporary signing are entirely the contractor's responsibility.

Drawings and details · 1/3

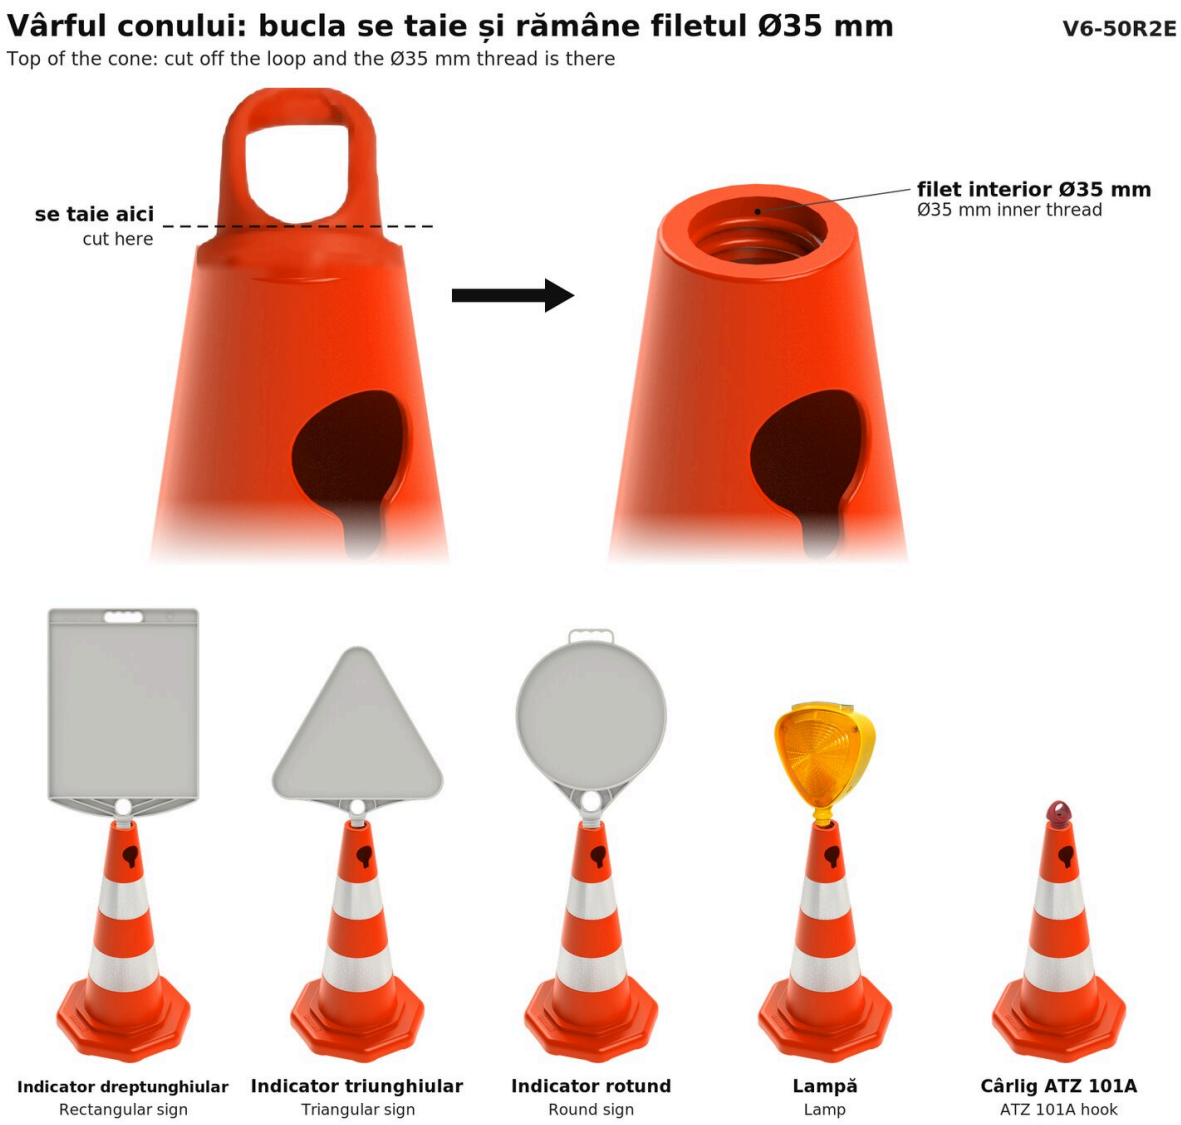

Dimensiuni în mm. Înălțime cu bucla: 520. Bucla de 35 mm se taie pentru filetul Ø35 mm și conul rămâne de 485 mm.
Dimensions in mm. Height with the loop: 520. Cut off the 35 mm loop to use the Ø35 mm thread and the cone is 485 mm.

PE, portocaliu, 0,9 kg; 2 benzi albe tip fagure, 79 + 79 mm.
PE, orange, 0.9 kg; 2 white honeycomb bands, 79 + 79 mm.

Conul și baza octogonală sunt dintr-o singură bucată, cu picioare și canale pentru scurgerea apei.
Cone and octagonal base are one piece, with feet and channels that let the water drain.
