Technical specifications

Material:	1mm Galvanized steel
Reflective:	EG type film Cl.1
Mounting System:	Clamps x2, Screw and Nut x4

Description

It serves to indicate the beginning of the road section where overtaking is prohibited for vehicles intended for the transport of goods. The range of the sign ends at the meeting of the sign "End of overtaking prohibition" or "End of all restrictions" if another restriction has been established on that road section. Additionally, the area of action of the sign may also be limited by the corner of the first intersection in the direction of travel. Drivers of buses, cars, and motorcycles are allowed to overtake. Stopping (thus also parking, turning around, and reversing) is prohibited in its area of action.
