Technical specifications

Material	PP
Reflective	Honeycomb
Thread	35 mm

Description

The red disc with a horizontal white bar means vehicles may not enter. The ATZ 542 is useful when traffic has to run one way for a while: a driveway turned one-way for an event, a car park exit that must not be used as an entrance, or a private road closed for works.

Technical data

- Ø28 cm disc;
- material: PP, with honeycomb reflective film;
- handle on top, 35 mm threaded base;
- weight: 0.35 kg.

Mounting

It screws into the threaded socket of a portable post, such as the ATZ 63315R2, or straight into the thread at the top of a cone. On cones with a loop on top, cut off the loop first. The top handle makes it easy to move from place to place.

Where it is used

At car park exits, in shopping centres, at festivals and fairs, in company yards with one-way traffic and in areas closed off for works or cleaning.

What to combine it with

Place a few cones or barrier tape in front of it, so drivers see from a distance that the way is closed. To send them another way, add a keep-left or keep-right sign, the ATZ 540 or ATZ 539.
