Technical specifications

Material	PP
Reflective	Honeycomb
Thread	35 mm

Description

An exclamation mark in the red triangle means "caution, something dangerous ahead" when the hazard has no symbol of its own: a cable across the road, an oil spill, a machine pulling out, a gravel patch. The ATZ 776 is the most versatile warning sign in the range, because it fits almost any situation.

Technical data

- triangle, 39 cm high;
- material: PP, with honeycomb reflective film;
- 35 mm threaded base;
- weight: 0.45 kg.

Mounting

It screws into the threaded socket of a portable post, such as the ATZ 63315R2, or straight into the thread at the top of a cone. On cones with a loop on top, cut off the loop first. The reflective film makes it visible at night too.

Where it is used

In industrial yards and warehouses, where machines leave a building site, on private roads, in car parks with a damaged area or at events with cables and equipment on the ground.

What to add

Add a warning lamp or a few cones with it, so the hazard is noticed in poor light as well. For a specific hazard, choose the matching sign: "Road works", the ATZ 782, or "Uneven road", the ATZ 779.
