Technical specifications

Material	PP
Reflective	Honeycomb
Thread	35 mm

Description

The ATZ 538 has a horizontal white arrow on a blue disc and is printed on both faces. Seen from one side it reads "turn left"; from the other, "turn right". One sign covers both directions: turn it to face the other way and the arrow changes in seconds.

Technical data

- Ø28 cm disc, double-sided;
- material: PP, with honeycomb reflective film;
- handle on top, 35 mm threaded base;
- weight: 0.4 kg.

Mounting

It screws into the threaded socket of a portable post, such as the ATZ 63315R2, or straight into the thread at the top of a cone. On cones with a loop on top, cut off the loop first.

Where it is used

To divert traffic around a closed area, to show the car park entrance at an event, to route cars along a temporary one-way system or to show the way to the loading bay in a company yard.

Tip

For a route with several turns, a few copies of the same sign are enough: each one turns to the direction you need.

Other signs

To pass an obstacle, see the ATZ 540 (keep right) and ATZ 539 (keep left).
