Technical specifications

Material	PP
Reflective	Honeycomb
Thread	35 mm

Description

The ATZ 357 has the white wheelchair symbol on a yellow background, on a 34 × 40 cm panel. Yellow stands out against grey asphalt and parked cars, so the reserved space shows from a distance even when the floor marking is worn or covered in snow.

Technical data

- dimensions: 34 × 40 cm;
- material: PP, with honeycomb reflective film;
- white symbol on a yellow background;
- handle on top, 35 mm threaded base;
- weight: 0.55 kg.

Mounting

It screws into the threaded socket of a portable post, such as the ATZ 63100R2, whose heavy base keeps it steady at the head of the parking space. On a cone, it screws straight into the thread at the top, with no adapter. On cones with a loop on top, cut off the loop first.

Where it is used

In the car parks of shops, clinics, banks and office buildings, at events or wherever reserved spaces have to be marked temporarily until a fixed sign is installed.

Other versions

The same symbol on a blue background, also 34 × 40 cm, is the ATZ 358. For an ordinary car park, see the ATZ 359.
