Technical specifications

Material (Cone)	PPC
Material (Indicator)	PP
Base Shape	Hexagon
Reflective	Cat Eye, Honeycomb

Description

A cone in front of a gate only tells people that something is there. With a No Parking sign on top, drivers understand straight away that the space has to stay clear. The ATS 3060-545 puts the V6-60R parking cone and the ATZ 545 sign together, ready to stand in front of an entrance, a loading bay or a reserved space.

What is in the set

- the V6-60R parking cone: red, with 2 white bands and 12 cat's eyes, 36 cm hexagonal base, 6 kg;
- the ATZ 545 plastic sign: Ø28 cm disc, blue with a red border and red diagonal bar, honeycomb reflective film, 35 mm thread.

Stability and visibility

The cone has a thread at the top, so the sign screws straight into it with no adapter. With 6 kg in the cone, the set is not moved by the wind or by a light knock from a bumper. At night, the cat's eyes and the sign's film return the light from headlights. Assembled, the set stands 95 cm tall and weighs 6.5 kg.

Where it is used

In front of garage gates and service entrances, on a space kept for a house move or a delivery, in company yards and private car parks.

Other versions

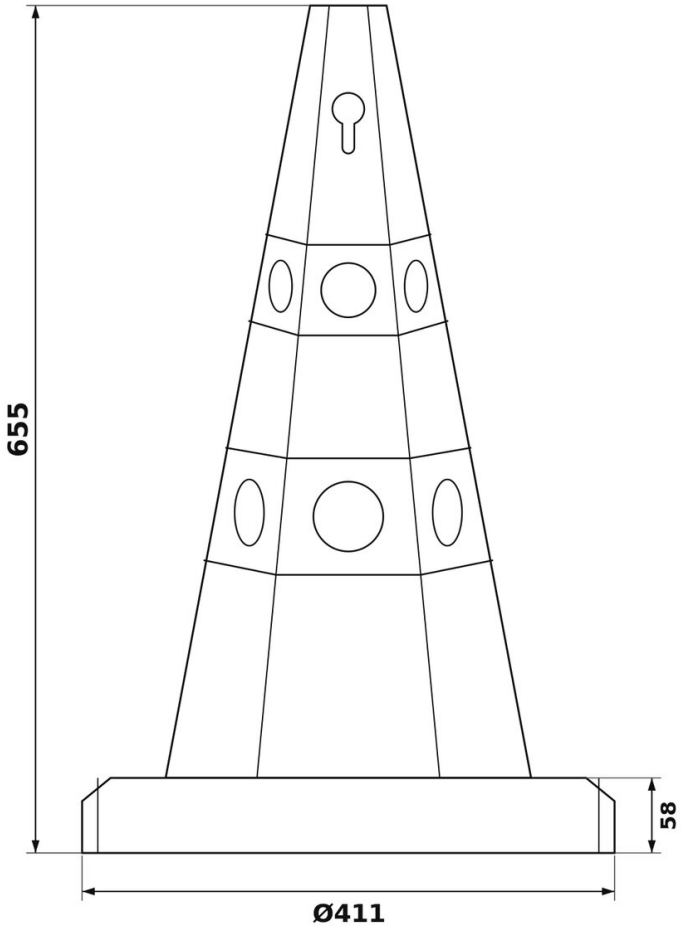

With a roadworks sign, it is the ATS 3060-782. For a taller cone on a weighted base, see the ATS 3271-545 (75 cm) and the ATS 3291-545 (90 cm).
