Technical specifications

Material	TPU
Size (Base)	20 × 15 cm
Color	Black
Installation	4 Dowels, 4 Screws

Description

The tallest guidance post in the range is 90 cm, and its panel rises straight out of a flexible bellows. The bellows is the part that bends when the post is hit, so the panel stays intact. It goes at the nose of traffic islands and lane separators or in front of an obstacle.

The panel

The face of the panel carries the blue keep-right sign, with diagonal yellow-black stripes below that show drivers where the obstacle is.

Base and installation

Unlike the ATO 2185 and ATO 2186, which have a round base, the ATO 2196 has a 20 × 15 cm rectangular base and is fixed at 4 points with the 4 anchors and 4 bolts included.

Technical data

- 90 cm high;
- 20 × 15 cm base;
- 2.2 kg;
- TPU, weather-resistant.

Other guidance posts

For an 85 cm version with a round base, see the ATO 2186 (black) and ATO 2185 (orange).
