Technical specifications

Material	TPU
Size (Base)	Ø20 cm
Color	Orange
Reflective	Honeycomb, Metalized
Installation	3 Dowels, 3 Screws

Description

The post goes at the nose of a traffic island or in front of an obstacle and shows drivers which side to pass. At the top it carries a panel with the blue keep-right sign, and below it diagonal yellow-black stripes that mark the obstacle.

Construction

The panel sits on a flexible orange TPU post with white reflective bands, all mounted on a Ø20 cm round base. The reflective finish is of two types, honeycomb and metallised, so the sign and the post show up at night in the headlights.

Technical data

- 85 cm high;
- Ø20 cm round base;
- 2.2 kg;
- TPU, flexible and weather-resistant.

Installation

The base is fixed into asphalt with 3 anchors and 3 bolts, supplied in the box.

Other versions

In black, at the same height, it is the ATO 2186. The ATO 2196 is 90 cm with a 20 × 15 cm rectangular base.
