Technical specifications

Material	Painted Steel
Size (Post)	Ø89 mm x 75 cm
Thickness (Post)	3 mm
Size (Base)	Ø15 cm
Color	Green
Reflective	2 Honeycomb
Installation	3 Dowels, 3 Screws

Description

Green blends into parks, public gardens, courtyards with planting and tree-lined paths, where a black or yellow bollard would stand out too much. The ATZ M7592-GR has the same shape as the black model: a brimmed cap, 2 reflective bands below the cap and a round flange at the base.

Material

Powder-coated steel with a 3 mm wall. The powder coating makes the bollard weather-resistant, and the Ø89 mm tube does not bend under a light knock.

What it is for

It separates footpaths from parking, keeps cars off green areas and marks access lanes in parks and courtyards.

Technical data

- Ø89 mm, 75 cm high;
- round Ø15 cm flange, 3 fixing points;
- 3.5 kg;
- 2 honeycomb reflective bands.

Installation

It is fixed with 3 anchors and 3 bolts, included free of charge. One person can install it easily.

Other colours

A lighter shade of green is the ATZ M7592-GRd, and black is the ATZ M7592-BK.
